

NEWSLETTER October 2009

New distributor agreements:

We have succeeded in adding new distributors for the following markets:

Norway, Company ACTE AS has agreed to distribute our products on the Norwegian market, ACTE AS is a major supplier of electronic components in Norway, covering all segments of the industry.

Spain, Company Cableados y Conexiones S.L. (Caycon) has agreed to distribute our products on the Spanish market, Caycon is especially strong in the field of cable and connectors. Furthermore Caycon has a branch in Columbia with the ability to supply the South American market.

We wish to welcome both ACTE AS and Caycon as distributors, and hope for good long lasting relations between our companies.

Please visit our homepage for detailed contact information on our new distributors.

New projects with plastic moulded or stamping parts?

Due to increases in customer requests for drawing specified parts, we have made investments in a new Sodick wire EDM machine, this offering further possibilities for our tooling department in cases of rapid mould making for plastic moulded or stamping parts.

Technical specifications as below:

Max. weight of work piece: 350 Kg.
Work tank dimensions: 850x610 mm
X travel: 370 mm
Y travel: 270 mm
Z travel: 250 mm
Taper angle work piece thickness: 100 mm

For further information please contact R & D manager René Kok at +45 5476 0543 or Rene.Kok@ossi.dk

Best regards
